Maine Environmental Education Association

People and organizations
working to promote
environmental education
in Maine's schools
and communities.

WHY MEEA?

Conserving Maine's rich cultural and natural heritage requires an environmentally aware citizenship.

Recognizing this important goal, the Maine Environmental Education Association (MEEA) was created in 1982. MEEA helps organizations, schools, groups, educational programs, and individuals promote and expand environmental education in Maine. MEEA works to network and keep groups and individuals informed of issues and events in the field of environmental education.

MEEA is an affiliate of

the New England Environmental Education Alliance

and

the North American Association for Environmental Education.

Check MEEA online at:

www.meeassociation.org

for more information and environmental education links!

OUR MISSION

The Maine Environmental Education Association (MEEA) facilitates and promotes environmental education in Maine through the sharing of ideas, resources, information, and cooperative programs among educators, organizations, and concerned individuals.

~Annual Conference~

MEEA sponsors an annual spring conference-- a day of workshops, exhibits, forums, field trips and demonstrations providing information about what's happening in Maine in the field of environmental education. The MEEA conference brings together environmental & marine education organizations, schools & teachers, outdoor educators, museums, farm & forest centers, scout & 4-H leaders, governmental agencies, conservationists, organic farmers and gardeners, camp counselors, youth leaders, students & parents.

~Board of Directors~

As a nonprofit educational organization, MEEA is led by a volunteer board of directors that meet every other month. All meetings are open to all MEEA members.

~Connections Newsletter~

Connections, the newsletter of MEEA (on-line and in print), provides information on upcoming programs, projects, and events throughout the state.

- Articles on environmental programs and issues
- Curriculum ideas for classroom teachers
- Environmental education resources in Maine including grants & training sessions
- Upcoming MEEA events

~Environmental Educators of the Year~

MEEA's *Environmental Educator of the Year* awards are given to individuals and programs who have been recognized for their commitment and innovative contributions to environmental education in Maine.

~Maine Environmental Education Guide: A Resource for Maine Educators~

This publication provides information on environmental education programs statewide and is available on the MEEA website and in print form (on request).

~Mini-Grants~

MEEA's mini-grant program is designed to support teachers and non-formal educators in the design and implementation of classroom, school, and community-based environmental education projects.
